# PRICING

We have several standard options when you are booking an event. Never let that stop you from asking questions, we would love to work with you!

## STARTING PRICE

**Weekdays: \$500**

**Weekends: \$550**

\*Subject to change based on events and desired outcome.

## OPTIONS

### PRIVATE EVENT OPTION #1:

Minimums include 1/2 dozen donuts and a drink of their choice for the first 40 people. After that, the price is \$11/per person.

\*We have found that this is the best option for a private even with several people so that we can get their order out as soon as possible\*

### PRIVATE EVENT OPTION #2:

If you are looking to cover the complete cost of your party/business/etc. We can run a tab throughout the day, where you can pay at the end of the shift. If the total is less than the minimum starting price, you will still have to pay the complete minimum.

### PUBLIC REQUEST OPTION:

Let us know the estimated amount of people in your neighborhood, event, party, etc. and we can take a look at coming out to your spot!

## CONTACT

Don't see what you're looking for? We will get it taken care of! We have done several events where we have created a custom option based on the options above.

# FAQ'S

## Do you do private events?

Yes of course! We have done dozens of both public and private events including the following: baby showers, weddings, various corporate parties and events, schools (both staff and students), art fairs, car shows, and probably a few others that we aren't even remembering to put on here. The truth is, we are willing to do any event and we are pretty obsessed with ensuring that your guests/team are absolutely thrilled by having us there. We put a lot of thought into how to make each event special as they certainly are not one size fits all.

## Will you do only coffee or only donuts for an event?

Yes, we are open to whatever you are wanting us to serve, but we must add that the events where we have done only one...the customers are always begging for both coffee and donuts!

## Do you have any alternative milks for coffee drinks?

Yes, We serve oat milk as an alternative to dairy. Why oat milk? It has been proven as the most creamy and the best tasting alternative to dairy when steamed. There are many other options other coffee businesses will use, but due to both space constraints and wanting to serve the highest quality product, we have chosen to use oat milk.
